# BPAOT - Business Requirements Report

Total Entries: 8

Top 10 Frequent Words in Requirements

Top 10 Words in Requirements

Raw Requirements Data

ID	Requirement	Pain Point	Proposed Solution
1	Track leave requests	Employees don't know request status	Add real-time tracking in the HR portal
2	Centralize approvals	Managers respond via scattered emails	Create a centralized approval dashboard
3	Automate report generation	Manual monthly reporting is slow	Auto-generate PDF reports from database
4	Improve data search	Filtering records is time-consuming	Add a search and filter panel for users
5	Analyze process delays	No visibility into bottlenecks	Include timestamp logging and delay metrics
6			

	Summarize user feedback	Unstructured notes are hard to review	Store feedback with sentiment tagging
7	Visualize data trends	Stakeholders don't understand raw data	Use bar charts and KPIs in reports
8	Reduce duplicate requests	Employees submit same requests twice	Add validation for existing entries
